

## OHIO HIGH SCHOOL TEAM FIGURE SKATING CHAMPIONSHIPS FREQUENTLY ASKED QUESTIONS ABOUT HIGH SCHOOL FIGURE SKATING CLUB CONCEPT AND THE OHHS CHAMPIONSHIP

1. Why even try to start skating clubs at the high school level in Ohio? Due to the large number of high school and middle school students who enjoy skating from the beginner level to senior level. Figure skating is a very popular sport in Ohio. In northeast Ohio alone, there are a large number of rinks and figure skating clubs. Members of these clubs support the idea of skating for your school in addition to your figure skating club.
2. What exactly is a school skating club? A school skating club is a group of high school and feeder middle school students who are interested in skating and wish to represent their school in an annual state competition. The club can be made up of skaters of all levels from beginner through senior level. This type of school club competition is unique in that members can range from the beginner level to the highest proficiency and be representing their school on the same team. This also allows skaters who are unable to participate in other after school sports due to their level of commitment to skating to participate on a team that is representing their school. Overall, a skating club is a fun, friendly format to represent your school and maintain friendships outside of school in a supervised activity.
3. Currently who supports this concept? United States Figure Skating (USFS) the governing body of the figure skating in the United States supports this concept and in fact all schools must register their team annually with the USFS. The Greater Cleveland Council of Figure Skating Clubs is also a supporter of the concept. The GCC is made up of all clubs in the northeast Ohio area and information on the annual competition is funneled through the delegates to the GCC.

Currently there are a number of high school and collegiate teams in Ohio. Since 2006, the Shaker Figure Skating Club has hosted the Ohio High School Team Championship and these are the schools who have participated in the Ohio High School Team Championship:

Shaker Heights HS  
Solon HS  
Orange HS  
Mentor HS  
Kenston HS  
Laurel School  
Hathaway Brown  
Hawken School  
Gilmour Academy  
Padua Franciscan HS  
Wooster HS  
Twinsburg HS  
Stow Munroe Falls HS  
Strongsville HS  
Garfield Hts. HS  
Lake Catholic HS  
Notre Dame Cathedral Latin  
Kent Roosevelt HS  
Riverside HS

Collegiate teams include:  
Ohio University, Miami University and Kent State University.

4. Where else in the US are there high school skating clubs? Currently the following states have active high school skating clubs: Michigan, Indiana, Connecticut, Massachusetts, Rhode Island, Vermont, New Jersey and Colorado.
5. Who would be eligible to join a high school skating club? Any student interested in figure skating could join the club. Each school will have guidelines for academic, discipline and attendance that students must follow to be members of clubs. In order to participate in the annual Ohio High School Championship, club members

would have to be members of USFS in order to have insurance coverage for the competition. A student could be a member of the club and choose not to participate in the competition however this scenario is unlikely due to the fact that the competition is the main focus of formulating the team.

6. Will the club have a charter, team meetings, and an advisor? Clubs typically have charters for formulation. The number of team meetings will be dependent on the group. Each team must have an advisor (who signs the application sent to the USFS). The advisor should be chosen based on their interest in figure skating. The advisor should also plan to attend the annual Ohio High School Championship. Teams may meet for the purposes of planning their team wardrobe, selecting team members for the spin and maneuver teams, making signs for the competition and any fundraising that might be needed for the team to travel to the championship.
7. What exactly will the skating club do and what will they accomplish at their school? The club will promote figure skating within the school community. In general they will promote school spirit by representing their school at the annual high school competition. One part of the competition is a "spirit award". This award is given by the skating professionals present based on the school's spirit shown through signs, fans cheering for their team, team colors/clothing. Team members who are not competing at the event may assist the organizing club with score running, music running and monitoring duties.
8. What is the breakdown of skating club membership requirements? First, every school will have requirements for club membership. The skating club will have to comply with those requirements. Any club member who intends to participate in the annual competition must also be a member of USFS. If they are currently a member of an affiliated USFS figure skating club, they will already be a member of USFS. If they are not a current member of a figure skating club, they will have to join USFS. The student should speak to the advisor about how to go about joining USFS. There may also be some fees incurred with practicing at a local rink, coaches fees and any team uniform (jacket, shirt).
9. What paperwork is required from the school district? Your school district will require you to complete paperwork similar to other clubs forming at your school in order to receive recognition. Each school is different, so you will need to investigate this with your activities advisor. Once the club is formed at the school, you must submit the Application for High School Affiliated Club (HSAC) Membership form to the USFS along with a \$30 fee. The fee should be paid by all participating members of the skating club. There is no other form needed from the school for the club to participate in the annual championship competition. This championship will be run similar to other skating competitions where the entrance fees will be born by the individual skaters. Travel to the competition site will also be arranged by the skaters and will not involve school property or equipment.
10. What is a Unified Team and how do I start one? A unified team may represent two or more high schools and have no more than 10 skaters. Ten skaters would include all skaters on the team from 5<sup>th</sup> through 12<sup>th</sup> grade. Each team forming a unified team must have at least one high school skater. Only one HSAC form needs to be completed but it must be signed by an official of all participating schools. Each Unified Team may choose its own name but the HSAC form must indicate all the High Schools involved on the team.
11. What is the annual Ohio High School Team Championship and how will students participate? In order for the clubs to have a purpose and goal, a high school team championship competition was begun in 2003. Since 2006, the Shaker Figure Skating Club has hosted and grown this annual event with the assistance of the Greater Cleveland Council of Figure Skating. This event is typically held in February each year at Thornton Park Ice Arena in Shaker Heights, Ohio. This competition is sanctioned by the USFS. The competition is held outside of school hours and transportation to the event is the responsibility of the skaters and parents.
12. How is the competition judged? The competition is judged by USFS sanctioned judges who donate their time and expertise year round to the sport of figure skating. This competition is judged using the 6.0 system. The competition includes free skating events, compulsory moves, dance and short program events, showcase events, two team events and a team production number event. The team events consist of 2 to 4 members from the school. The team events include spin and maneuver team. In the past, the showcase events have

been judged by “guest” judges who are not sanctioned judges of USFS but have a relationship and knowledge of figure skating that qualify them to judge this portion of the competition. Skaters placing first through fourth place in the showcase events will be eligible to compete at Showcase Nationals.

13. What are the competition awards? The championship is run in a similar manner to other USFS sanctioned competitions. Each event will be judged individually and medals are awarded for First through Third place and ribbons for Fourth. The school represented by the high school skater will receive points for their placement dependent upon the number of skaters in the event, not to exceed 6 points (e.g. a group with 6 or more skaters would receive: 1<sup>st</sup> place – 6 points through 6<sup>th</sup> place—1 point . A group with only 3 skaters would receive: 1<sup>st</sup> place—3 points through 3<sup>rd</sup> place—1 point). High Schools will receive plaques for overall point totals for the free skating events; compulsory moves and short program; showcase; maneuver teams; and spin teams. There are overall team point total award trophies for first, second and third place. Only points from qualifying events are considered for these awards. The judges also award a trophy for Team Spirit. The medals are for the skaters to keep personally. The plaques and trophies are to be presented to their school for the school's trophy case.
14. Is there are fee required of skaters to skate in the championship? Yes, there will be fee required of all skaters. Each skater may participate in a maximum of three events for their school team. The production group number is a separate event and can be a 4th event for those skaters entering three other events. The team may hold fundraisers in order to off-set the entry fee expense. This is up to each school to determine.
15. Do skater's private coaches attend/coach at the championship? Spectators are encouraged to attend. There is no admission fee. We request that other skaters from the competitors' teams are at the boards with their team mates. We encourage private coaches to attend and they may “coach” their students in between events.
16. Are there individuals I can contact to get more information? A USFS club is required to be the host of a sanctioned figure skating competition. The local area co-chairs of the event are: Kendra Wood (216.295.2154) and Angie Chapple-Wang (216-577-6002) [OHHSCompetition@gmail.com](mailto:OHHSCompetition@gmail.com). The Chief Referee of the event has been Jamie Hebert, [jehebert@hotmail.com](mailto:jehebert@hotmail.com) . The Chief Accountant has been Shirley Rego, [smrego@aol.com](mailto:smrego@aol.com). Any of these individuals should be able to assist you with questions you might have.
